

# EMILIANO ALFONSO

• web developer •

## ABOUT ME

Music teacher and front-end fanatic. I enjoy learning new technologies, creating beautiful websites and overall making the user have a good experience. When it comes to designing, I am a perfectionist. I am a person that's easy to get along with, and am always striving to be a better developer.

## EXPERIENCE

- E-commerce project - Duration: 1 month - Design and development of a website dedicated to selling digital videogames. Built using React, Redux, Express, PostgreSQL, Sequelize, Passport, and Firebase.  
<https://ecommerce-ft07-g07.vercel.app/>
- Teaching Assistant at Henry - 2 months - My role was to guide students, help them understand core concepts and reinforce the theory by providing explanations and extracurricular projects.

## EDUCATION

- 2009 - 2021 - "Luis Gianneo" College of Music, Mar del Plata - Music Teacher
- 2020 - 2021 - Henry Bootcamp - FullStack Developer. 700+ hours of intensive learning. The technologies learned there include HTML, CSS, JavaScript, React, Redux, Node, Express, PostgreSQL, Sequelize, Github, and the SCRUM methodology.

## SKILLS

HTML	Bootstrap	React	Express	Git & Github	React Native
CSS	Less & Sass	Redux	Sequelize	Testing	Adobe XD
JavaScript	Tailwind CSS	NodeJS	PostgreSQL	SCRUM
