EMILIANO ALFONSO

WEB DEVELOPER

ABOUT ME

Music teacher and Front-end enthusiast who enjoys learning new technologies, creating beautiful websites and overall making the user have a great experience. When it comes to designing, I am a perfectionist. I am a person that's easy to get along with, and am always striving to improve myself, both as a developer and as a person.

EXPERIENCE

Software Developer at Mercado Libre (oct 2021 - present) - Front-end development using React, Sass and TypeScript, for the biggest e-commerce platform in Latin America.

Front-end Developer at SEIS S.A. (mar 2021 - oct 2021) - Development of web apps related to the field of electricity, using Next.js in conjunction with TypeScript and Styled Components.

Teaching Assistant at Henry (dec 2020 - feb 2021, may 2021 - aug 2021) - My role was to guide students, help them understand core concepts and reinforce the theory by providing explanations and extracurricular projects.

EDUCATION

Henry Bootcamp (oct. 2020 - feb. 2021) - Fullstack Developer. 700+ hours of intensive learning. The technologies learned there include HTML, CSS, JavaScript, React, Redux, Node, Express, PostgreSQL, Sequelize, Github, and the SCRUM methodology.

"**Luis Gianneo" College of Music**, Mar del Plata (dec. 2010 - dec. 2020) - Music Teacher
