EMILIANO ALFONSO

WEB DEVELOPER

ABOUT ME

Music teacher and front-end fanatic who enjoys learning new technologies, creating beautiful websites and overall making the user have a good experience. When it comes to designing, I am a perfectionist. I am a person that's easy to get along with, and am always striving to be a better dev.

EXPERIENCE

E-commerce project - Duration: 1 month - Design and development of a website dedicated to selling digital videogames. Built using React, Redux, Express, PostgreSQL, Sequelize, Passport, and FIrebase.
https://ecommerce-ft07-g07.vercel.app/

Teaching Assistant at Henry - from dec. 2020 to feb. 2021 - My role was to guide students, help them understand core concepts and reinforce the theory by providing explanations and extracurricular projects.

EDUCATION

"Luis Gianneo" College of Music, Mar del Plata - Music Teacher

Henry Bootcamp - from Oct. 2020 to Feb. 2021 - Fullstack Developer. 700+ hours of intensive learning. The technologies learned there include HTML, CSS, JavaScript, React, Redux, Node, Express, PostgreSQL, Sequelize, Github, and the SCRUM methodology.
